ADMISSIONS POLICY

GOVERNORS POLICY OF ADMISSIONS

The Governors have adopted the Local Education Authority's policy on admissions, the current version of which has been published as follows:

First Priority: Looked After Children

Children who are registered as being in the care of a local authority (for example, fostered or living in a Children's Home)

Second Priority: Exceptional Arrangements:

Occasionally there will be a very small number of children for whom exceptional circumstances will apply which will warrant a placement at a particular school. Evidence from a consultant doctor will be required for medical cases. Documentary evidence from any relevant support services will be required for other sensitive family circumstances. This evidence should set out why the child should attend a particular school. Places may be allocated under this criterion when places are first offered at a school and the Local Authority may also ask schools to admit over their Published Admission Number at other times under this criterion.

Third Priority: Siblings

A sibling will be considered to be a brother or sister (that is, another child of the same parents, whether living at the same address or not), a half-brother or half-sister or a step-brother or step-sister or an adoptive or foster sibling, living at the same address.

A child will be given sibling priority if they have a sibling at the school concerned at the time of the child's admission. For the initial intake to the school a child will be given priority for admission only if their sibling will still be at the school in the September following the application. This will apply both at the initial allocation of places and also when prioritising the waiting list. Giving sibling priority has the effect of maximising the opportunity for children in the same family to be educated at the same school or at a school on a shared or adjoining site.

Fourth Priority: Children for whom the school is the nearest to their home

The nearest school is defined as the school closest to their home address admitting students of the appropriate age range, as measured along roads and made up footpaths using the Admissions and Transport Team's Geographical Information System. The measurement for these purposes does not take into account the mode of transport used. The distance is measured from the address point of the students house as set by Ordnance Survey to the nearest gate available for students to use. Parents should note that if they apply for free transport different criteria apply and the distance from home to school may be measured using a different route.

Distance from Home to School, measured as above will apply within each category as a means of prioritising places.

Fifth Priority: Any other applicant

Remaining places will be offered on the basis of nearness to the school measured in a straight line from the address point of the pupil's house, as set by Ordnance Survey to the nearest school gate for pupils to use. If there are two applicants from the same block of flats the applicant with the lowest door number or letter will be given priority.

Waiting Lists

For those students who do not obtain their preference the LA will operate a waiting list for the period of one academic year only. Waiting list places will, therefore, be allocated as follows should vacancies occur:

A) All first preferences according to the criteria listed below:

1. Looked-after children
2. Exceptional arrangements
3. Siblings
4. Non-siblings for whom it is the nearest school
5. Other applicants

Distance from home to school, measured along roads and made up footpaths using Surrey's Geographical Information System, will apply within each category as a way of prioritising places on the list. See Surrey's information on school admissions and transfers document.

B) If the school receives more applications than there are places available, priority would be given in the following order:

1. Looked-after children
2. Exceptional arrangements
3. Siblings
4. Non-siblings for whom it is the nearest school
5. Other applicants

Distance from home to school, measured along roads and made up footpaths using Surrey's Geographical Information System, will apply within each category as a way of prioritising places on the list. (See Surrey's information on school admissions and transfers document).

SPECIAL EDUCATIONAL NEEDS POLICY

Students with special educational needs are those who at any time during their school career need additional support with their learning or with physical, social or emotional problems that may impact on their learning. Included amongst them are the gifted and talented who need extension activities, those with specific learning difficulties and those with permanent or temporary physical, social or emotional disabilities. Included amongst them are those with specific or more generalised learning difficulties and those with permanent or temporary physical, social or emotional difficulties.

The School welcomes all students who can benefit from a broad, balanced mainstream education and aims to integrate all its students without discrimination. We recognise, however, that in order to derive maximum benefit from our curriculum, students with special/additional educational needs must be identified, supported, assessed and monitored. Such students are the responsibility of all teachers in the School and we work with parents and outside agencies to make provision for them. The Governors monitor and review the provision and outcomes for students with Special Educational Needs on a termly basis.

SCHOOL ASSEMBLY (INCLUDING COLLECTIVE WORSHIP) POLICY

Assemblies are a valued vehicle for communicating the ethos of The Warwick School and part of the school curriculum of all students. It is a natural vehicle for communication on school issues and events and the promotion of leadership by the Headteacher and other senior members of the teaching staff. They provide a unique opportunity for the year to meet together with the Head of Year and forge a collective identity over the period of years they are together. Topics are appropriate to age and interests, yet allowing flexibility to respond to world events, or a particular curricular or pastoral event related to that year group.

Assemblies contribute to students' spiritual, moral, social and cultural development, including commitment to core British values and are part of the educational provision of the School. Assembly is not voluntary but teachers and parents can exercise the right of withdrawal from

the act of worship. The School's assembly policy allows for the personal spiritual freedom of both students and members of staff. Acts of collective worship, which may be incorporated within Assembly will also be provided elsewhere such as Word for the Week, discussed in Tutor time. In complying with the law it should mainly be of a broadly Christian character and provide opportunity for student participation and response.

HEALTH AND SEX EDUCATION POLICY

The Governors' policy on Health and Sex Education serves the following School objectives:

- to promote students' self-esteem, mutual respect, sensitivity, tolerance, co-operation and goodwill in human relationships and the highest standards of physical well-being.
- to develop students' understanding of religious and moral values.

Underlying values

The School seeks to encourage a lifestyle which promotes mental and physical health. We believe that sexual relationships should only be entered into within a stable and loving relationship.

Specific Objectives of The School's Health and Sex Education Programme

- to help pupils make informed, reasoned and responsible choices by increasing knowledge, challenging attitudes and influencing behaviour;
- to increase pupils' understanding about the physical, social, legal, psychological, financial and educational implications of health related matters;
- to encourage pupils personal responsibility in relationships and to help them develop a personal moral code;
- to enable pupils to identify sources of appropriate personal support;
- to promote good parenting skills and a healthy lifestyle.

Content of the School's Health and Sex Education Programme

Health and Sex Education permeates the curriculum and is embedded in the ethos of the School, as well as being part of a planned programme of lessons across a number of subjects in both Key Stages. Training and teaching resources are made available within the constraints of the school budget.

The detailed programme is available for parents to inspect at the School. Parents may withdraw their children from those parts of the Sex Education Programme which are not compulsory elements of the National Curriculum. Requests to withdraw pupils must be made in writing to the Headteacher.

The Warwick School has built, maintains and seeks to extend links with relevant external expert agencies to support the programme, including Surrey Police, Encounters, health service providers and commercial companies.

CHARGING AND REMISSIONS POLICY

In accordance with the 1988 Education Act, all activities offered to pupils during the school day, whether on or off the premises, will be provided free of charge with the exception of individual and small group tuition in playing any musical instrument outside the requirements of GCSE examination courses or the National Curriculum.

Charges will be made for optional extras which take place wholly or mainly outside school hours. Participation in any optional extra activity will be on the basis of parental choice and a willingness to meet such charges as are made.

Students will not be charged examination fees for those subjects in which they have been prepared by the school. The cost of examinations for which the student has not been prepared by the school will be passed on to parents. If a student fails without good reason to complete the examination requirements for any public examination, the fee will be recovered from the parent.

There may also be other activities during the school day which are designed to extend and enhance the range of activities and experiences available to pupils, but which are beyond those encompassed within the National Curriculum and for which no LA funding is available. These will not be subject to charges but will only take place if sufficient voluntary contributions are made to support the activity.

The School will respond sympathetically to genuine cases of hardship brought to its attention to ensure that no student is unreasonably denied the opportunity to be involved in the range of activities organised by the School.

BEHAVIOUR FOR LEARNING POLICY

Statement of Principles

The Governing Body's statement of principles and aims provide guidance for the Headteacher in developing the Behaviour for Learning Policy by stating the principles which governors expect to be followed. These are as follows:

The Warwick School aims to provide:

-  an optimal learning environment so that student potential is attained
-  a community ethos which respects and tolerates all
-  a common rewards system to provide positive encouragement, praise and recognition of good behaviour and effort
-  sanctions which address persistent behavioural problems
-  support for students with learning and/or behavioural and social needs
-  a consistent and fair response to behavioural issues
-  rules that clearly define the limits of acceptable and non acceptable behaviour

The Warwick School aims to both guide and reflect prevailing good practice. As such the policy is a dynamic document, subject to ongoing review in the light of developing practices and initiatives both within and without the school. We set out to create an environment that develops appropriate behaviour for learning and more widely supports the attainment of wider aims in terms of each student's personal development, behaviour and welfare, to ensure that every child can achieve his or her potential in a positive learning environment irrespective of their background or circumstances.

CHILD PROTECTION AND SAFEGUARDING POLICY

We recognise that all adults, including temporary staff, volunteers and governors, have a full and active part to play in protecting our students from harm, and that the child's welfare is our paramount concern. All staff believe that our school should provide a caring, positive, safe and stimulating environment that promotes the social, physical and moral development of the individual child.

1.0 Introduction

- 1.1 This policy has been developed in accordance with the principles established by the Children Acts 1989 and 2004; the Education Act 2002, and in line with government publications: 'Working Together to Safeguard Children' 2018, Revised Safeguarding Statutory Guidance 2 'Framework for the Assessment of Children in Need and their Families' 2000, 'What to do if You are Worried a Child is Being Abused' 2015. The guidance reflects, both 'Keeping Children Safe in Education' 2018,

and Surrey Safeguarding Children Board SSCB Child Protection Procedures

- 1.2 The Governing body takes seriously its responsibility under section 175 of the Education Act 2002 to safeguard and promote the welfare of children; and to work together with other agencies to ensure adequate arrangements within our school to identify, assess, and support those children who are suffering harm.

 - 1.5.3 To raise the awareness of all teaching and non-teaching staff of the need to safeguard children and of their responsibilities in identifying and reporting possible cases of abuse (Reference Appendices 1 and 2)
 - 1.5.4 To provide a systematic means of monitoring children known or thought to be at risk of harm, and ensure we, the school, contribute to assessments of need and support packages for those children.
 - 1.5.5 To emphasise the need for good levels of communication between all members of staff.
 - 1.5.6 To develop a structured procedure within the school which will be followed by all members of the school community in cases of suspected abuse.
